Re: 2019 National Convention

My Fellow Pro-Duffers:

During our recent National Council conference call the South Florida Chapter enthusiastically reported that official registration for the 2019 National Convention has exceeded 180 golfers. Although the body took this information as good news, SOFL advised that they were trying to push the numbers beyond 200 golfers.

In support of their ambitious goal, they reported that PGA National has pledged to accommodate up to 208 golfers utilizing the 3 courses reserved. Also, the registration period will be lengthened and, more importantly, PGA National has extended the room guarantee until August 24th. Registration remains active and easy to navigate on our website www.produffersusa.org.

With this information and in support of SOFL’s goal to surpass all previous attendance records, we call upon all National Officers, Chapter Presidents and all Pro-Duffers to reconsider participation in this year’s National Convention, get off the fence and join us in a fun filled weekend of competitive golf and camaraderie.

We especially extend the invitation to all remaining Founders of Pro-Duffers USA to consider this opportunity to witness the results and achievements of your September 1988 vision. But more notably, an occasion for all of Pro-Duffers USA to display our deference and appreciation.

PLEASE! PLEASE! PLEASE!... Start a conversation among every chapter to encourage its members and golfer friends to take advantage of this enlargement of the enrollment period to break records and ensure the success of the 2019 National Convention.

Yours in golf,

Kelvin A. Massey, National President
Pro-Duffers USA, Inc.
